VIGNOBLES PALATIN GUIBERT

LES TERRASSES DE PALATIN

AOC SAINT EMILION

GEOGRAPHICAL LOCATION

Located in the heart of the Saint-Emilion vineyards, Les Terrasses de Palatin benefit from privileged southern exposure as well as a wide variety of terroirs ranging from clays to gravel, and including areas with more silt or limestone.

GRAPE VARIETIES

Merlot: from 80% to 90% depending on the vintage
Cabernet Franc: from 10% to 20% depending on the vintage

WINEMAKING PROCESS & AGING

This wine is vinified and aged exclusively in tanks to maintain distinctive elegance and suppleness, while offering lovely aromatic potential.

Its “spicy” side is created partly by whole-cluster fermentation, with 30-40% of the grape stems kept in the tank to provide a tannic structure totally “natural” to the wine. The same way a chef might use peels to create flavor in a dish.

TASTING

This wine has surprising elegance, aromatic freshness, a lot of fruitiness on the palate and a hint of spiciness. It pairs ideally with white meat or an assortment of rather fruity cheese.
